

Eliminate Scope Condensation

Scope Warmer
TM500
Box of 10/Case of 30

Our new longer lasting, double sided scopewarmer pre-warms endoscopes to body temperature to keep them free from condensation. It's easy to use and each side can provide over one hour of warming time. No batteries or difficult to activate charcoal-type warmers. No need for costly decontamination, sterilization, and additional sterile water for thermos-type warmers.

- Disposable, sterile heating device
- Stays warm for over 2 hours
- Warms endoscopes in less than a minute
- Inexpensive and easy to use
- Latex and DEHP Free
- Environmentally friendly
- Contains Saline only - no chemicals

**NEW & IMPROVED
EXTENDED LIFE
Warms Up
To 2 Hours**
